Hello Sherri,

Going through my paperwork I found a inspection narrative done by Shane Howe with the Wyoming Department. Agriculture that states Mr. Howe performed inspection of Presto-x and Mr. Howe review applications performed on 7/21/15, 7/22/15, and 8/3/15.

Two things very important:

1. Where is the spray for 7/10/15 done by Presto-x?
2. Why did he not notice or ignore regulations on chemical not being sprayed more than once in the seven days allotted for Talstar-P?

I've attached narrative

Thank you
